RE: NPDES Industrial Wastewater Permit No. IL0070408
USEPA ID No: ILD005178975
IEPA ID No: 1110900003

Dear Sir:

This letter is being written to point out an apparent error in our permit.

The first permit for this facility in 1995 required Techalloy Company, Inc.(now Central Wire) to analyze our wastewater for trichloroethene, tetrachloroethene and 1,1,1-trichloroethane. Somehow that got changed and our current permit issued June 18, 2013 specifies 1,1,1-trichloroethane, trichloroethane and tetrachloroethane. Central Wire believes the permit was meant to read ethene for the second and third chemicals.

If you need any additional information, please contact me at 815-923-4928.

Sincerely,

Gerald W. Ruopp
General Manager
Central Wire Inc.
Union, IL 60180
